Report of Library Trustees

To the Citizens of Rye:

The Rye Library begins its thirty-fourth year of service to the Community with a strengthened reference department, and as wide a choice of books of fiction, travel and biography as funds permitted.

Income from the bequests of public spirited citizens has been used in accordance with the conditions of each Trust.

The Town appropriation has covered expenses of administration and maintenance, including insurance and the purchase of a limited number of books. During the summer repairs to the slate roof were found necessary.

We acknowledge with gratitude the gift of ten dollars from the Every Other Tuesday Club for the purchase of reference books, and also gifts of books as listed in the Librarian's report.

HELEN F. PHILBRICK,
WILLIAM H. LOCKE,
JOHN E. ANTHERS,

Library Trustees.

January 2, 1945.

Report of Librarian

To the Trustees of the Rye Public Library:

The following is a report of the Library for the year:

No. of volumes circulated	12,153
No. of borrowers' cards issued	132
Largest circulation	275
Smallest circulation	101
No. of Volumes last year	12,660
“ “ added this year	323
“ “ discarded	300
Total number of volumes	12,683
Amount taken in fines	\$17.06
Balance from last year	1.70
From sale of magazines and books	4.20
Spent for Library supplies	20.00
Balance on hand	2.96

The statistics show the Library year to be nearly a repetition of the past two years except that the circulation this year shows an increase of approximately 2000 volumes over last year.

The problem of proper classification still exists, due to crowded conditions in the stack room. This situation is helped somewhat by the elimination of worn and out-moded copies, and window ledges, tables, etc., have to be used for the newer additions.

Books and magazines have been presented by

Dr. and Mrs. Wallis Walker
Mrs. Virgil Harrington
Mrs. Edward Francis
Mrs. J. H. Hartford
Miss Alma G. Hill
Mrs. Haddon Hooper
Mrs. Arthur Harriman

The same number of magazines have been subscribed for and with the gift copies furnish good reading, to meet every need.

The Library is open Wednesdays and Saturdays, one o'clock to seven o'clock. All books and magazines may be kept two weeks and no limit to the number one may take.

Respectfully,

HELEN C. DRAKE,

Librarian.

Auditors.

Report of Trustees of Trust Funds

To the Citizens of Rye:

Six cemetery trust funds have been established during the year with a principal value of \$1,350. The total principal of the 116 trust accounts now amounts to \$84,552.39.

Four investment issues have been paid off, including \$2,000 Federal Land Bank Bonds, \$2,000 Mortgage Bond of Maryland, \$5,000 Town of Rye Note and Saunders Apartments in Chicago. These issues have produced an income varying from 4% to 5%. The reinvestment of these funds will result in a lower average income since the trend of interest or dividend return on investments, legal for trust funds, continues downward with no immediate prospect of a change.

Your trustees have been consulted by several parties contemplating the creation of trusts, primarily for the care of cemetery lots, as to the desirable amount of principal to provide the income necessary for such purpose. In each instance the provisions of Section 23 of Chapter 51, Revised Laws of New Hampshire, defining how such funds shall be invested, have been explained and the suggestion has been made that the donor should first decide the amount of annual income he wishes to provide then, giving full consideration to the trend of investment returns, work backward to a determination of the principal that will produce such amount of income when invested under the provisions of the State laws.

It should be noted that by Legislative enactment the Fiscal Year for all towns ended on December 31, instead of January 31. The present report of Receipts and Expenditures is, therefore, for a period of eleven months rather than a full year and for this reason is not strictly comparable with previous reports.

SHIRLEY A. PHILBRICK,
ELDRED W. MARSHALL,
AGNES M. BROWN,

January 2, 1945.

Trustees of Trust Funds.

Report of the School Board

The School Board respectfully submits the following report:

After two years as principal, Mrs. Seavey said she would rather be a teacher, and at her earnest request we secured Mr. John H. Day to take over as principal. Mr. Day came highly recommended from the Keene Junior High School and has certainly proved a fine man for the position. With the cooperation of the Parent-Teacher Association he has started a dancing class for the four upper grades, which meets one afternoon each week. In December he managed a War Bond auction with one of the boys as auctioneer.

In January he is starting Saturday afternoon movies for the children of pre-school and school age. The first afternoon there were more than one hundred and fifty children in attendance. Mr. Day says parents are very welcome at the movies, but they will likely have to stand because of the seating capacity of the auditorium.

Mrs. Russell left us at the end of the school year, but with Mrs. Seavey resuming full-time teaching it was possible for Mrs. Del Bianco to take over the Home Economics Department.

Miss Sterling left at the close of school in June to join the Waves. We were fortunate to secure Miss Barbara Wakefield of several years' experience teaching in Maine.

After several tries we secured Mrs. Lois Barnett to prepare and serve the hot lunches. Reports from both teachers and pupils say she is doing a fine job.

We would thank the Every Other Tuesday Club for the money they so generously gave the school this year.

We would also thank the Darning Needle Club for the indoor games which they gave each room this year. The children enjoy them very much especially on cold and stormy days.

We gratefully acknowledge and appreciate the cooperation of the Parent-Teacher Association in their many kindnesses

to the pupils, such as ice cream the last day of school and candy at Christmas. Also for their hearty co-operation in cleaning up and grading the play grounds. We hope by spring to have a good athletic field.

Just before school closed in June we had to have the slate roof on the main building repaired again. The slates were loose and sliding out.

In August, lightening struck the cupola. Fortunately all the damage was on the outside. After waiting several weeks the contractor, who put the cupola up was able to get it repaired enough to keep out the winter storms and will finish it when the weather moderates. We may well be thankful there was no damage inside the building and that no fires were started.

ELIZABETH M. MARDEN,
LESTER J. STAPLES,
MARY P. VARRELL,

School Board.

Report of Superintendent of Schools

To the School Board of Rye:

I herewith submit to you my fifteenth report as superintendent of your schools.

The Rye school began the current year on September 6, 1944, with an initial enrollment of 221. This continues the gradual increase in our school population which has been evident in recent years. The lower and intermediate grades are rather evenly divided with the smallest being 25 in grade four and the largest, 35 in grade five. The junior high has an enrollment of 42 pupils.

The teaching staff of Rye has two changes from last year. Miss Lucille Sterling resigned to enter the Navy as a Wave. Grade four is now being taught by Miss Barbara Wakefield, a teacher of several years' experience in the schools of Maine. She continues with us the success she has achieved in former years. Mrs. Russell, teacher of Home Economics in 1943-44 decided not to teach this year. Mrs. Del Bianco is now in charge of this department and is presenting to the pupils valuable procedures in home making.

With Mrs. Seavey's desire to return to teaching, it became necessary to seek a principal. Mr. John Day came to us from the principalship of Keene Junior High School. Since he also was well qualified to teach Mechanic Arts, we were doubly pleased that he decided to come to Rye. He believes in the education of the individual pupil and plans his work to that end.

Mr. Day's introduction of guidance work as a part of the regular school program is in line with the most modern procedures of the leading schools. Guidance in the school calendar is a twofold subject. The first group of studies is that of the qualifications necessary to successfully engage in different trades, occupations or professions. Also studied are the op-

portunities for receiving employment in each of these and the advantages and disadvantages that accrue to each.

Although this helps the pupil get an idea of the type of life work he might desire to follow there still remains the question as to his ability and his aptitude for a certain work. An accurate analysis of the pupil himself must follow. Many tests have recently been devised to measure aptitudes for definite types of work. These will be given to the pupils in the guidance classes. By means of these it is planned to lessen the number of misfits occasioned by a thoughtless choice of school subjects or an ill considered selection of some occupation. We believe the pupil who knows himself is the most likely to succeed.

According to the *Journal of Education*, New Hampshire leads all forty-eight states in the amount of reading by its citizens. The public libraries of this state contain the greatest number of books per capita. The statistics show the range to be from 3.58 books to .15 books with New Hampshire the former figure. This may be the result of the emphasis on reading in recent years in our schools. We believe we have, this year, strengthened our course by the introduction of the latest group of reading books throughout the lower and middle grades in Rye.

Our own school library is becoming more useful and more used each year. Under Mrs. Seavey's direction, only books that are of use in the school life of our pupils are purchased. It seems to some of us that the building up of this library is one of the more important functions of the school.

By close correlation between our work in mathematics and that of the corresponding grades in Portsmouth and Hampton, Miss Edwards has adequately prepared our pupils for courses in those high schools. Such understanding of the schools to which they will go adds much to the service the teacher can render our pupils.

Rye was fortunate, indeed, to retain the teachers of last year in our first three grades. Mrs. Makin, Miss Dearborn and Mrs. Kalin are the more valuable to the town because they have worked together during the previous year. Theirs is

the task of teaching the mechanics of reading and fundamental operations of arithmetic to our classes. It is a full three-year program requiring much work on the part of both pupil and teacher.

For those pupils who, for one reason or another, need drill beyond the first three grades, Miss Wakefield in Grade 4 and Miss Dickey in Grade 5 have established special groups. These groups will be given special attention and extra opportunity to work at their own level with the expectation that they will acquire the skills which they need to advance to higher grades.

Visual education is emphasized in the Rye school this year. Much picture material of educational value is available at small cost to the schools. Learning seems to be retained longer when acquired through seeing than through hearing.

The children of Rye have conscientiously tried to do their part in the war effort. During the past school year they bought a total of \$3,328.30 in bonds and stamps. This is a per pupil purchase of \$16.64. They were also active in the collection of milkweed pods, the total gathered being 60 bags. It will be of interest to note that the number of milkweed bags contributed by the seven towns of Union 21 was 487. It is estimated that two bags will furnish material for one life jacket.

A unique method of arousing interest in the purchase of stamps and bonds was introduced into the Rye school by Mr. Day. It took the form of an auction of various articles contributed by the pupils, parents and teachers. The bidding was in real auction style with William Morton as auctioneer. The payment, however, was in the purchase of war stamps to the value of the bid. Two hundred and twenty-six dollars was realized from the first auction. Cooperative effort in an activity of this kind has value far beyond a like effort of separate individuals. We are looking forward to other similar programs.

The school board will acknowledge the work of the Parent-Teacher Association for our school. I should like to add my thanks also. The dancing classes sponsored by the organization are proving of educational worth to the school as a whole.

The instructor is wholly capable and the results socially are outstanding. The value of school dances after such training is an asset to our children.

The report of our school nurse, Mrs. Lindsey, is included herewith. It shows the measurable results of her work. It cannot show the care she has taken of the health conditions of our school and the preventive measures she has taken for the protection of our children. The examinations made by Dr. White are further health measures of great value.

May I again express my appreciation for help from you as a board. Such help can only result in continually improving results.

Respectfully submitted,

ROY W. GILLMORE,

Superintendent of Schools.

Report of School Nurse

I hereby submit my third annual report of the Rye School District.

Annual physical examinations of the second and sixth grades were made by Dr. White, May 1944. Other remaining grades are examined by the school nurse. Following is the report of the examination.

Underweight	13	Defects corrected	0
Defective vision	9	Defects corrected	1
Defective teeth	33	Defects corrected	12
Diseased tonsils	13	Defects corrected	4
Diseased adenoids	..	Defects corrected	4
Enlarged glands	4	Defects corrected	4

The summer round-up sponsored by the Parent-Teacher Association was held in June, 1944. Dr. White in attendance, assisted by the school nurse and members of Parent-Teacher Association, examined seventeen pre-school children and ten children were vaccinated. The aim of this clinic is to examine the child for defects, and enable the parents to have these defects corrected before the beginning of school in September.

The dental clinic, under the direction of Dr. Pierson of Hampton, was held during the winter months of 1944. The children were transported from school through the kindness of the Rye Motor Corps and returned to school by the nurse. Following is the report of the Dental Clinic.

No. of pupils treated	85
“ “ receiving complete care	85
“ “ “ dental certificates	85
“ cleanings	85
“ temporary extractions	42
“ permanent extractions	14
“ cement fillings	13
“ silver fillings	195
“ porcelain fillings	12

The dental clinic is sponsored by the Parent-Teacher Association.

The audiometer test was given March 24, 1944. This test is given to detect defective hearing. The percentage of defective hearing among the school children was very small.

During the fall and early winter months we had an epidemic of mumps.

No. of cases of mumps	40
“ “ chicken pox	1
“ “ itch	1

It was decided to hold the physical examinations of Grades II and VI in September. Dr. White has already completed these examinations. The dental clinic is already in progress for 1945.

Weekly visits are made by the school nurse. Children are checked for skin, hair, weighed, measured, vision and hearing.

In closing, may I express my appreciation for the co-operation shown me by Mr. Gillmore, the School Board, Teachers and Parents.

Respectfully submitted,

DOROTHY E. LINDSEY, R.N.

January 22, 1945.

Report of School Physician

Owing to the fact that the dental clinic took so long in the fall of 1943, the medical examination could not be made before the spring of 1944, so this report covers two examinations made during the year 1944, which gave a total of four grades examined the past year, and enabled us to see how many corrections had been made of defects found the year before.

It is very gratifying to find that the majority of parents give heed to cards, pointing out defects found, and co-operate by having corrections made.

The epidemic of mumps this year caused much absenteeism, but all of the forty odd cases were comparatively mild and at least, it should be some years before we have such an epidemic again.

Most parents seem to have become conscious of the need for tooth care and the thing we would now like to stress, is the proper care of feet and posture.

Do not allow the child's shoes to become "run over" and see heels are replaced if they become worn down on either side.

Proper care of the child's shoes will help prevent flatfoot crippling in later life.

Parents should watch to see that the child does not get into a habit of reading or writing in a stooped over sloppy position. The old Army setting up exercises are a great benefit in many cases.

Do not send a child to school if you ever suspect he has any contagious disease.

HERBERT A. WHITE, M.D.,
School Physician.
